Description

A nonprofit that is advancing initiatives aimed at improving the U.S. healthcare system, particularly through Medicaid. CHCS focuses on integrating mental health and substance use services with other healthcare services, creating models for delivery system transformation. This includes improving access, quality, and outcomes for people with complex health and social needs by leveraging policy, practice, and funding strategies.

Description

A health policy nonprofit that partners with Medicaid stakeholders to improve care delivery, integrate services, and reduce disparities. They provide technical assistance, promote policy improvements, and spread best

practices to ensure high-quality, cost-effective healthcare. Their work involves enhancing the capacity of healthcare leaders, facilitating collaborations, and driving innovations that improve outcomes for vulnerable populations.
