Organization Type
Professional Association
Description

A national association of family doctors, with 130,000 members across the U.S. and internationally. As the foundation of healthcare in America, we provide comprehensive care to patients of all ages and backgrounds. The AAFP supports family physicians by offering resources for efficient practice management, billing, and

continuing medical education (CME). Members also gain access to a community for exchanging ideas and ensure family medicine is represented at all levels of government.
